

TAIGR PLUGIN

TRANSLATE SEAMLESSLY IN ANY APPLICATION!

Step into the world of effortless translation with the chic and savvy **TAIGR plugin**. It's your elegant assistant for instant access to neural machine translation engines, bitexts, terminology, and platforms like ChatGPT, TransSearch, and WeBiSearch all in a **single click**. Think of it as your linguistic fairy godmother, transforming your documents with a touch of magic.

The **TAIGR plugin** finds matches and inserts them directly into any Windows application instantly.

1. SLEEK SEARCH

Simply highlight the text and double-tap the left Ctrl key. It's like summoning a genie for your translation wishes.

2. ELEGANTLY PRESENTED RESULTS

in a streamlined interface. Watch as the **plugin** gracefully appears, offering neatly organized tabs for you to peruse results from LogiTerm modules, translation services, and bilingual concordancers. It's like having a personal stylist for your words.

3. CHIC TEXT INSERTION

with a single click. Found the perfect translation? A single click and it elegantly replaces the selected text in your document. Effortless, like slipping into your favorite pair of heels.

JUST THREE STEPS TO A WORLD OF REFINED TRANSLATION!
